

SENATE UNFIT TO LEGISLATE— DR. COPELAND

Says Nerve-racking Grind Has
Sapped the Vitality of
Group.

By WILLIAM S. NEAL
WASHINGTON, Nov. 20.—
Warned by its physician-member
Sen. Copeland (D) of New York
that it is "mentally and physical-
ly unfit to legislate," the senate
today prepared for another battle
over proposals to adjourn the
special farm relief and tariff ses-
sion Friday night, Nov. 22.

The long nerve-racking grind on
the tariff, Copeland declared, has
sapped the vitality of members to
a point where tariff rates affect-
ing millions of consumers are de-
cided with little comprehension of
the subject and with only the sen-
sation of its seats.

The movement for adjournment
is expected to come from the
Democratic side, and its advocates
declare the senate will reverse its
decision of last week when it re-
fused to even temporarily abandon
the Hawley-Smoot bill.

While the "Young Guard" is still
solidly against adjournment, back-
ers of the movement expected vir-
tually all Democrats, many of the
Republican "old guard" and most
of the insurgents to support the
new effort.

Failure thus far of efforts to
prevent a split of the insurgent
Republicans on the sugar tariff
and the threat of increasing irri-
tation of tariff-weary senators on
the Democratic - insurgent coali-
tion was said to have moved some
coalition leaders to seek a respite.

A second postponement of con-
sideration of the sugar schedule
brought the charge from Sen. Dill
(D) of Washington that action on
it would be delayed until every
other schedule has been disposed
of. Unless the senate reverses
action, it will swing into the wool
textile scheduled late today and
again delay the sugar items.

The entire Republican member-
ship was turning its eyes toward
the forthcoming meeting of the
committee to select a successor
to Sen. Edge (R) of New Jersey
in the finance and foreign rela-
tions committee. Insurgents are
prepared to demand that Sen. La-
fayette (R) of Wisconsin be
placed on the finance committee,
which writes the tariff and revenue
bills. The committee, insurgents
have repeatedly charged, has been
"packed" with eastern members.
Sen. Robinson (R) of Indiana is a
leading candidate for the foreign
relations post.

The Edge nomination as Amba-
sador to France is expected to be
received from President Hoover
before the senate adjourns. Edge
is now enroute to New Mexico to
visit a son, preparatory to leaving
the senate.

ADJOURNS FOR FUNERAL
The senate adjourned for the fu-
neral of Secretary of War Good,
but the coalition was prepared to
resume its sway by slashing finan-
ce committee increases in wool
duties.

In disposition of the cotton tex-
tiles, the senate rejected most of
the finance committee's proposed
increases and left the schedule, as
a whole, slightly higher than the
1922 law. Backers of increased
duties, however, won their first
win when the duties on un-
washed cloth were increased.
During the cotton fight, Vice
resident Curtis cast his first vote
to break a tie. He supported the
finance committee's recommenda-
tion for a higher tariff on "hit or
miss" goods.

CIRCLEVILLE HAS SNOW WEDNESDAY

Circleville will have 20 snows
in winter according to the old
saying about the date on which
a first snow falls. This num-
ber should correspond with the
number of nuts stored away by
squirrels, and the width of
a stripes on the woolly worms.
After days and days of rain,
when it seemed that all the mois-
ture would surely be out of the
y. Circleville awakened Wed-
nesday morning to find a light
covering of snow over everything.
It was very beautiful, but was
so damp, damp, damp, and did
not improve as the day grew on.
A freeze would fix everything
—the hunters who could track
bunnies to their holes. But
the mud thaws and
the cotton-tails scam-
per about in utter abandon, as
the mudrocks cling to the high
banks and highways.

Brooklyn Mother Sends Diet To Person Who Kidnapped Her Child

By DAVID P. SENTNER

NEW YORK, Nov. 20.—Joined
together in common grief after
their baby mysteriously disappear-
ed, Mr. and Mrs. Leon Larney, for-
merly separated, had their hopes
dashed to earth today when a child
taken to Bellevue hospital
proved not to be their missing in-
fant.

Meanwhile, Mrs. Larney sent
out a heartfelt broadcast to the
possible kidnapper to give the
stolen three-year-old Donald the
following diet, lest he die:
16 Ounces of certified milk.
28 Drops of lactic acid.
3 Tablespoonsful of dextrin-
maltose number 1.
12 Ounces of barley water.

This special diet, prescribed by
the doctor, should be given every
three hours, from six o'clock to
six o'clock with an extra bottle at
2 a. m.

Little Donald was left in his
baby carriage outside a Brooklyn
department store when his mother
went within to make a purchase.
When she came out, her baby was
gone.

Mrs. Larney went into hysterics
and had to be carried home.

BEGIN SEARCH FOR EIELSON

Blinding Blizzard Handicaps
Searchers For Daring
Pilot.

NEW YORK, Nov. 20.—The
search for Carl Ben Eielson,
missing polar pilot, got underway
today in Siberia, despite a blin-
ding blizzard, according to word
received from Teller and Fair-
banks, Alaska, by the aviation
corporation.

Frank Dorbrandt, pilot of the
Alaskan Airways, Inc., took off
from Teller planning to scout the
spot 60 miles from North Cape,
Siberia, where Eielson's plane
was last seen in flight by natives.

A dogteam also started search-
ing from North Cape. It is at
this latter site that the Norwe-
gian schooner Manuk is ice-bound.
Eielson, with a mechanic, was
making a second flight to the
schooner to rescue the strand-
ed members of the vessel.

GHOST BLIMP CAUSES MUCH DISCUSSION

Noise Which Was Heard Early
Wednesday Might Have
Been the "Puritan."

Light sleepers in Circleville early
Wednesday were awakened by the
purring sound of motors in the
sky, and as heads were poked out
of windows in all parts of the town
a dirigible was discovered circling
the city. The lights from the cab-
in were plainly discernible through
the falling snow and the ship nav-
igated from one end of the city
and over the center of town for
about 30 minutes.

Residents in the south end of
town report that they were fright-
ened when the ship was so low that
it appeared to be about to land on
the house tops. The ship circled
the court house at what is
thought to be 15 feet above the
town clock. Perhaps the crew had
forgotten their watches.

The dirigible, seemed to hover
the longest between the Memorial
Hall and the Court house. Out-
lines of the passengers of the
cabin could be seen, and the ship,
seeming uncertain as to what
course to take, finally started out
of town in a southeast direction.
After one final trip over the city,
at the lowest possible altitude
without striking trees and build-
ings.

Although Port Columbus could
give no definite report about the
ship, it is thought that the dirig-
ible was the Goodyear Blimp, Vig-
ilant, which was to leave Akron
by midnight Tuesday for Glades,
Ala. It was scheduled to fly over
Mt. Vernon, Columbus, Hillsboro
and to refuel at Lexington.

There is thought the ship was
off its course and through the
snow and fog, it was trying to
identify Circleville and to get back
on its course.

FIRE DESTROYS EMPTY HOUSE

Think Children Started Blaze
—Same House Burned
Down Year Ago.

A fire, thought to have been
started by children who had built
a fire in an unconnected stove
which had been placed in the
house by a tenant who had in-
tended to move in soon, caused
the house at the extreme end of
Walnut-st belonging to Charles
Hampp to be burned almost to
the ground Tuesday evening.

The fire had gained a good
headway before the fire depart-
ment was notified but after ar-
riving at the scene the blaze was
extinguished by the department.
A similar house standing within a
few feet of this one burned to the
ground last winter. What was
left of the first house to burn was
added to this house.

Damage was estimated by fire-
men at slightly more than \$50.

Analysis Shows Dairying As Source Of Most Gross Income To Farmers

Dairying is the source of more
gross cash income to Ohio farm-
ers, than is any other agricul-
tural enterprise. It led all other
sources of such income for 45 of
the 88 counties of the state, in
1927. Hogs ranked as the great-
est source of cash income in 32
counties, cattle in three counties,
fruit in two counties, vegetables
in two counties, sheep in two
counties, and corn in only one
county.

In that year Wood-co ranked
first in gross cash income from
the sale of agricultural products,
Darke-co was second and Wayne-
co third. For Pickaway-co the
total agricultural gross cash in-
come was \$7,955,000; the income
per acre was \$14.50 and per farm,
\$2,749. The highest ranking
source of income in the county
was hogs, which yielded 31 per
cent of the total. Second and
third commodities were wheat
yielding 21 per cent, and cattle
returning 19 per cent of the total
gross cash income.

Analysis of the figures on gross
cash income has been made by
the rural economics department
of the Ohio Agricultural Experi-
ment Station and the Ohio State
University. The figures in the
study do not reveal the value of
agricultural products, but the
cash money derived from their
sale. It does not include the
value of farm crops fed to live-
stock or used for seed, in the
counties where they were pro-
duced. This explains the appar-
ent minor place of corn in the
agricultural production of the
state, since a great volume of the
corn produced is sold in the form
of livestock to which it has been
fed, and therefore does not ap-
pear in the schedule.

Typical Year
The statistics of the year 1927
were chosen because the year
was practically typical of the
volume of agricultural income in
the state. Because of the omis-
sion of certain miscellaneous
items hard to classify and be-
cause no account is taken of any
income to the farmer except
through the sale of agricultural
products the figures given are un-
doubtedly lower than the actual
income of the farm owners as
pointed out by Prof. J. I. Fal-
coner, head of the rural econ-
omics department.

Because of wide difference in
the size of the counties it was
found desirable to determine the
income for each farm and for
each acre of arable land as a
better basis of comparison. The
low income per acre is largely
due to the fact that the average
designated in census returns as
"all land in farms" includes con-
siderable tracts of land not ac-
tually under cultivation and some
not even used for pasture," says
Professor Falconer.

SELECT JURY FOR M'MANUS

Seven Elderly Men Have Al-
ready Been Seated In
Rothstein Case.

NEW YORK, Nov. 20.—The
McManus case jury probably will
be completed today.

Seven jurors, mostly elderly men
were solemnly seated in the jury
box when court was reconvened
this morning at the trial of George
A. ("Smiling George") McManus
for the murder of Arnold Roth-
stein, Broadway's "man of mys-
tery." It has been a difficult and
tedious task in getting these sev-
en. For this was the third day
devoted to the business of picking a
jury.

The defendant McManus, despite
his ready smile and easy, non-
chalant demeanor, is taking no
chance in this—the greatest gam-
ble in his career. The stake is
his life. As he sits there in the
most famous courtroom in Ameri-
ca—the courtroom where Harry K.
Thal, Police Lieut. Charles Becker,
Nan Patterson and other person-
ages were tried—he survey each
tallesman appraisingly and listens
intently to every word uttered
from the witness stand.

GOOD GIVEN HIGH HONOR AT CAPITAL

Hoovers and Other Celebrities
Take Part In Impressive
Services.

WASHINGTON, Nov. 20.—

(INS.)—James W. Good left
Washington today after receiving
honors that have been accorded
few except presidents of the
nation.

For six hours the body of the
secretary of war lay in state in
the east room of the White House
with President and Mrs. Herbert
Hoover joining with the family as
the chief mourners.

With all government depart-
ments closed until 1 p. m. in re-
spect for the cabinet member, the
other members of the cabinet and
representatives of the diplomatic
corps who had known "Jim"
Good so well, joined the family
and the Hoovers at their vigil
around the casket.

The bronze coffin, draped with
an American flag and banked on
all sides with floral tributes sent
from practically every state and
nation, was placed in the center of
the room at 9 a. m. It was
brought on a gun caisson and its
escort of cavalry from an under-
taking establishment.

ILL ONE WEEK

Only nine days ago—Armistice
Day—Secretary Good was at the
White House in life. He called to
accompany the President to the
tomb of the Unknown Soldier in
Arlington National cemetery. He
complained of feeling bad then
and the next day it was decided
he enter Walter Reid hospital for
the removal of his appendix.

Blood poisoning developed and he
died Monday night.

The funeral services started at
11 a. m. with the Rev. Dr. J. R.
Sizoo, pastor of New York avenue
Presbyterian church, officiating.

The service, which lasted 20
minutes, began with the reading
of "I am the Resurrection and
the Life, said the Lord," follow-
ed by the 23rd Psalm.

Dr. Sizoo then gave the invoca-
tion and the Lord's Prayer, after
which eight verses of the 50th
chapter, First Corinthians.

During the services a quartet
from the New York Avenue Pres-
byterian church, which Secretary
Good attended, sang "Abide With
Me."

Two army sergeants stood at
attention beside the casket from
the time it entered the White
House until the funeral. Each
pair were relieved every 20
minutes.

The military procession started
at 2 p. m. when the casket was
replaced upon a caisson and taken
to the train at Union Station.
The four branches of the army,
along with the contingents of the
navy and marine corps comprised
the cortege. The train left at
3:15 for Cedar Rapids, Iowa, the
Good home. President Hoover
was represented on the train by
Lt. Col. Campbell B. Hodges, his
military aide.

Mrs. Good, the widow, her two
sons, Robert Edmond and James
W. Jr., and the relatives, includ-
ing Mrs. Williams Coumba, sister
of Mr. Good, and Mrs. John
Fletcher, sister of the widow, oc-
cupied the Baltimore & Ohio's
private car "Maryland."

NOTABLES PRESENT

Among the others aboard the
train are Secretary of the Navy
Adams. Senators Brookhart of
Iowa and Deneen, Illinois; Rep.
Cole, Iowa, Acting Secretary of
War Hurley, Assistant Secretary
of War Davison, General Som-
merall, chief of staff and the 14
enlisted men who comprised the
guard of honor around the body
since 3 p. m. Tuesday.

During the day guns at Fort
Myer were fired at half hour in-
tervals from reveille until retreat,
when a final salute was fired by
19 guns in honor of the dead war
secretary.

When the body reaches Cedar
Rapids tomorrow a 19 gun salute
will be fired at all army posts and
stations throughout the country.

BOOZE CHARGE FOR SENATOR

Denison of Illinois Charged
With Bringing Liquor
From South.

WASHINGTON, Nov. 20.—Indictment of Rep. Denison (R) of Illinois, a leading dry, for violation of liquor laws, shocked congressional dries today and threatened to precipitate a new prohibition war immediately after congress launches its regular session December 2.

Although Denison's friends maintained confidence in his innocence and congressional courtesy forbids mention of his name on the floor, the indictment is the culmination of a series of prohibition accusations acutely affecting congress.

Taunted by its own members and charged with harboring "wet drinking, dry voting" legislators, the house has seen three of its number involved in prohibition cases within the last year.

The broad assertion of Senator Gillett (R) of Massachusetts that he saw members of the house transacting business on the floor while intoxicated has aroused militant dries who may rise to extend the house's reputation in the new session.

Denison, it was pointed out, is the third house member who voted for the Jones "five and ten law" to be involved in an alleged prohibition law violation.

Rep. Michaelson (R) also of Illinois was indicted on a charge of bringing liquor to Florida from Cuba. He was acquitted, but a brother-in-law was found guilty.

Customs employes in New York alleged that Rep. Morgan (R) of Ohio, brought liquor back from Panama last year, but he was exonerated after investigation by prohibition officials.

NEW HOLLAND

Miss Geraldine Jennings came down from Columbus Friday for the basketball game.

Mrs. Fred Langdon of Pittsburgh, Pa., spent several days with Mr. and Mrs. Fred Volz.

Mrs. Julia Hyer and Miss Jane Ware of Bellefontaine were entertained last week in the home of Mr. and Mrs. Cash Kirk.

Webster C. French is attending the American livestock show in Kansas City, Mo.

Mrs. Martha McCollister, an aged resident and esteemed lady, died at her home Friday. Funeral, Sunday afternoon, was conducted by Rev. F. M. Roberts of Glouster, a former pastor of the local Church of Christ. Burial in New Holland cemetery by A. W. Kirk.

Miss Lena May returned Saturday from a several days' visit with Mr. and Mrs. Kerns.

The basketball games of Atlanta and the local teams Friday night proved very interesting. The girls' game was called first and was a good game score 19 to 18 in favor of New Holland. The boys' game scored 24 to 6 in favor of Atlanta. We had a capacity house won half the games, why should we worry about being worse.

Alice and Pauline Briggs of Circleville spent the week end with relatives.

Chas. Kirk of Columbus was a visitor here the last of the week.

Highly Durable Stone

The facitious stones employed by the Babylonians and early Egyptians, as well as among the Greeks and Romans, and at the present at Barbary and among the nations of Malabar, were all a species of basalt. They mention that the columns which adorn the peristyle of the Egyptian labyrinth were of this material and the great length of time it has existed (over 2,000 years) shows the durability of this form of construction. The Romans made free use of the material in constructing their walls, aqueducts, pillars and roads. Portions of these still remain.

Serious Drawback

Father and mother were talking about buying a new car. Five-year-old Mary Ellen heard them say that they believed they would buy one with a rumble seat. She listened to the discussion as long as she could without saying a word. Finally she interrupted them.

"Daddy," she said, "we couldn't buy a car with a rumble seat because I haven't any little boy to hold me in."

"I AM THE HAPPIEST MAN IN THE WORLD"

73 Year Old Farmer Makes
This Claim After Spinago
Restores Health To Him.

There may be others happier than Mr. Michael E. Flinn, seventy-three-year-old farmer who resides near Chillicothe on Egypt Pike R. R. No. 1. But Mr. Flinn doesn't believe so. And it is not strange that he should consider himself happier than the rest of the world because nine years of pain and misery, nine years of discouragement, nine years of trying one remedy after another without results, nine years of doctoring have all been ended by Spinago. Let Mr. Flinn tell his own story in his own words.

"For nine long years I doctor-ed and tried one remedy after another to relieve my terrible suffering caused by ailments of my stomach and bowels. Spells of pain would come over me, often lasting more than three hours. These miseries became so intense that I didn't think that I could stand them any longer. A continual pain in my side prevented my getting around a great part of the time and kept me from my work. No one can imagine the long suffering I went through nor the despair which surrounded my home when one treatment after another failed to bring me relief. I truly believed that I would never spend another happy day."

MR. MICHAEL E. FLINN.

"But one day hope was again kindled in me. I had started taking Spinago and the benefits began to appear. Slowly but surely my health was returning. After taking three bottles I found that all my troubles had vanished. I can truthfully say that I believe myself to be the happiest man in the world, because Spinago has freed me from all pain and suffering; put my stomach and bowels back in shape and transformed me from a continual sufferer into a man who enjoys the blessings of health and well being. My pain, spells and the misery in my side have vanished and it is all due to this master medicine. I cannot recommend Spinago too highly."

And countless others call daily at the Spinago stores with praise as great as Mr. Flinn's. Heed his words, you sufferers from stomach, liver and bowel complaints. Take his advice, all you who spend days of misery caused by rheumatism, neuritis, indigestion, constipation and dyspepsia.

Spinago is sold and guaranteed in Circleville by The Mykranz Pharmacy, 107 N. Court St., and by all other good druggists in this section.—Adv.

the attractiveness of the home. The guests were seated at six small tables where pink roses in bud vases adorned the center of the tables. Mrs. F. I. Rittenour and Miss Ora Rittenour assisted the hostess in serving the delicious course luncheon. At the conclusion of the game, prizes were awarded to Mrs. Paul McGinnis and Mrs. Fred C. Leasure.

Sommers at Urbana, O. Mrs. Lillian Hinton and Mrs. Alice Brundage arranged a pleasant surprise shower for Mrs. Howard Dreisbach (Flossie Harpster) on Friday afternoon, Nov. 15th at the home of Miss Mary L. Harpster. The guest list included Mrs. Lucy B. Price, Mrs. Abbie Gusman and Mrs. Bessie Long of Circleville; Mrs. Scott Dreisbach and daughter Mary, Mrs. George Gill, Mrs. Ada Aldenderfer and Mrs. Val Valentine of Stoutsville, Mrs. James Mowery, Mrs. Wayne Dreisbach and son, Ned, near Circleville, Mrs. F. E. Mowery, Mrs. Golden Minsler, Mrs. Mary Hatcher and Miss Mildred Holderman. The hostesses served individual pumpkin pies with whipped cream and coffee. In cutting dead or unsightly branches from a shade tree the cut should be made cleanly with a saw, as close to the main trunk or limb as possible. Cascara is Good for the System

What do you do when a sluggish system tells you the bowels need a little help?

The best thing yet discovered for the purpose is still the little candy Cascaret! Take one whenever the liver and bowels are not functioning as they should.

Cascarets are pleasing to the palate, and pleasant in their action. You eat them just like candy. They work while you sleep. Gentle, but thorough Cascarets don't stir-up the stomach or upset the system. But they cleanse the entire thirty feet of bowels in one comfortable, thorough action that leaves the system clean and sweet, leaves you

with an untainted breath, uncoated tongue, and clear head.

Cascarets are made of cascara—long regarded one of the most beneficial laxatives known to medical science. They are sweetened with pure cane sugar and flavored with real licorice. Children love them. So do most grown-ups! Why take anything harsh when constipation threatens? Whenever a dull headache, lassitude, or sick stomach with loss of appetite warns you of poor elimination, a Cascaret or two is the most harmless form of help you could give a lagging system.

Take a candy Cascaret tonight and see how fine you'll feel in the morning—and for days after.

SAYS NOVEMBER IS BEST SHRUB MONTH

November is the ideal month for planting shrubs, and plantings projected for any time during the next year should be finished by the end of this month if possible says Victor H. Ries, extension specialist in floriculture for the Ohio State university here.

It is better to buy vigorous shrubs, two or even three years old, is Ries' advice. "They will have better root systems and will give quicker results and surer results under poor growing conditions, than the younger plants," Ries asserts that any shrub which can be grown in Ohio can be and should be purchased from the nurseries in the state.

He urges that the shrubs be planted as soon as they are received, or else unpacked and the roots completely buried in a trench. When it comes to the actual planting, it is necessary to dig a hole large enough so that all the roots on the plant may be spread out comfortably. "Fill in the best soil around the roots and stamp firmly so there are no air holes. If the soil is very poor it may be advisable to obtain good soil and fill in around the roots with that. The poorer and harder the soil, the larger the hole which should be dug. The plants should be set in the ground to the same

depth at which they were growing in the nursery. Unless the root system is adequate, it may be well to remove about one-third of the top of the shrub after it is planted."

Barnyard manure, if available, makes a beneficial mulch applied liberally over the surface of the ground. Peat moss, straw, or leaves may also be used, but should be supplemented in the spring with commercial fertilizer, says Ries.

SUCH POPULARITY MUST BE DESERVED

MILD, yes...and yet THEY SATISFY

SOPHOMORE GRID SENSATIONS FEATURE THIS SEASON'S GAMES

That this year is more conducive to sophomore football sensations than probably any other in the history of the sport seems to be more and more evident with the spontaneous ascension of Bill Morton of Dartmouth following so closely upon the heels of Albie Booth, Yale second-year star.

Being a third-string substitute under Al (Special Delivery) Marsters and Tommy Longnecker isn't such a roseate situation for any aspiring gridiron back but it was the nearest Bill Morton, humble soph rookie, could dare yearn for with such recognized performers above him. When Marsters' strained back rendered him hors de combat and Longnecker's virility appeared on the verge of waning, Morton had the same opportunity before him that the secretary of state would have, should the president and vice-president go into retirement.

WHACKING SURPRISE
Just how Bill Morton, the 20 year old kid, would react to this wholly unexpected chance was entirely up to Bill Morton himself. Suffice to say the kid was a whacking surprise—to those unacquainted with the youth. To those who knew the record of Morton, he did precisely what was expected of him.

The wizard of New Rochelle High's grid team, Bill entered Dartmouth with a sizable reputation but like most schoolboy prodigies his importance was overlooked when it came to varsity consideration. Undaunted and unconcerned, Bill became president of the first year class and proved to be better than the next man in freshman football, baseball and hockey. With such excellent preparation Morton made the scrub team this season,

THE CIRCLE REALTY CO.

A WOULD-BE DAVID

By DOUGLAS W. MILLER

DELAWARE, O., Nov. 20—

Ohio Wesleyan, a determined football David, is busily preparing this week for its game with the gridiron Goliath at West Point Saturday.

The Battling Bishops are taking only relatively light work this week for they are in prime condition for their big battle and will take no chances on injuries before they meet Army.

The Bishops have all to gain and nothing to lose as they invade the Army's football battlefield. Claiming no championships and already once defeated and once tied this season, Ohio Wesleyan is viewed by the football world as but another freshwater college victim dumped into the gridiron arena to make a Roman holiday for the powerful Cadets.

Just because they do enter the contest as the under-dog, the Bishops will be at their best, Buckeye gridiron followers declare pointing to the past record of Ohio Wesleyan as proof. Three times in recent years, the Bishops have invaded the East and each time their cause was rated as hopeless. But in these three games with Syracuse they have returned with two ties and one victory.

Study of football records reveals the Bishops as they prepare for their clash with Army

to be an outstanding small college eleven. They have lost but two games in the last two seasons and have defeated Syracuse and Michigan. This year they have rolled up a total of 280 points to 60 for their opponents.

The personnel of the Ohio Wesleyan team includes some of the outstanding figures in Ohio college football. Floyd Siegenthaler, Alliance, was an all-Ohio and all-Buckeye conference end in 1928. Ted Franz, Ashland, Ky., halfback, is acclaimed as having made the longest scoring run in 1929 football. Charles Wertz, Toledo, quarterback, is the high individual point scorer of the Buckeye Intercollegiate Athletic conference.

Peggy's Choice

Peggy was descended from a long line of Methodists. One day she and her father and mother were going through a new Baptist church. When Peggy found the modern baptistry, she ran to her mother.

"Come quick, mother," she said, "they have a lake in this church." Mother and daddy went to admire the beautiful marble baptistry.

"Let's come to this church," said Peggy, "then I could learn to swim."

Says Sam: "As indignant as a pedestrian splattered with mud while walking through a red traffic light."

WASHINGTON LOSES GAME

Flying Clouds Again Show Superiority By Annexing Game, 26 To 8.

Sam Grant's Flying Cloud basketball team took its second encounter of the season Tuesday from the Washington-twp tappers by a score of 26 to 8. The game was played at the Armony.

The Clouds hopped off on the right foot and in the first period held a lead of 12-2. Their fast passing was the undoing of the school boys.

Glitt with eight points and Wefler with six were high point men for the winners, while M. Leist for the school boys was high with one basket and two foul tosses. The only other bucket for the Washington crew was credited to Delong.

MRS. HARRETT DODGE
"For years I was the victim of indigestion," said Mrs. Harrett Dodge, 1441 Crown avenue, Dayton, Ohio. "No matter what I ate the food failed to digest properly. I had no appetite and what I managed to force down always formed gas and brought on indigestion pains. Weakness of my kidneys caused me to rise several times a night and I felt tired and worn out all the time."
"I heard a great deal about Konjola and decided to give it a chance. Day by day the improvement became more noticeable. My stomach was cleansed and regulated. My appetite returned and food now digests as nature intends. Then Konjola strengthened my kidneys. I also had rheumatism in my limbs, but that ailment was swept away by Konjola. I am feeling better than I ever expected and I have never met a medicine to compare with Konjola."
Konjola is sold in Circleville at Hamilton & Ryan drug store and by all the best druggists in all towns throughout this entire section.
